

# Lithium-Ion Battery

## Customized Battery-LFP 24V

# ATOMBOTIX

### Extreme Temperature Resilience

Operates flawlessly in -20°C to 60°C environments, ideal for harsh conditions like cold storage facilities or high-temperature industrial settings

### Modular Flexibility, Cost-Efficient Scalability

Scale capacity freely by adding/removing modules; replace single modules without system downtime. Global supply chain enables rapid customization at low maintenance costs

### Ultra-Long Cycle Life, Built to Last

Engineered specifically for AGVs, with a cycle life 4x longer than lead-acid batteries. Slow capacity degradation minimizes replacement needs, ensuring reliable long-term performance

### High-Efficiency Fast Charging

90-98% round-trip efficiency (vs. 70-85% for lead-acid), supports rapid charging with minimal performance loss, maximizing operational uptime

### Safety & Eco-Friendliness, Guaranteed

LFP (Lithium Iron Phosphate) chemistry delivers high thermal stability to reduce fire risks, while non-toxic materials meet stringent environmental standards

### High Energy Density, Lower Total Cost

50%+ space and weight savings vs. traditional batteries for easy deployment. Combined with long lifespan, low maintenance, and modular upgrades, total ownership costs drop by 30%+

| Type                             | AB-BT-LFP-24V-24AH     | AB-BT-LFP-24V-30AH | AB-BT-LFP-24V-50AH | AB-BT-LFP-24V-60AH | AB-BT-LFP-24V-100AH | AB-BT-LFP-24V-210AH |
|----------------------------------|------------------------|--------------------|--------------------|--------------------|---------------------|---------------------|
| Nominal Voltage                  | 24 V                   |                    |                    |                    |                     |                     |
| Charing Operating Temperature    | 0°C - 55°C             |                    |                    |                    |                     |                     |
| Discharing Operating Temperature | -20°C - 60°C           |                    |                    |                    |                     |                     |
